Hi Stephen!

We plan to bring this to you at our next scheduled meeting, but below is a link to SB150. It is our understanding that this is in effect immediately. We believe this will have drastic implications for districts and we will definitely need some guidance. It's nine pages long so we wanted to give it to you ahead of time if you have a chance to read it.

See you then!

[Abigale Piper](#)

The Kentucky Department of Education has released guidance on some bills that passed during the legislative session that concluded only weeks ago. These include guidance for the bills with emergency clauses and guidance supplements for SB5 and SB150 that will likely need more clarification as you work to remain compliant in schools and districts. KSBA and KDE have also released model policy to assist in implementation of SB5.

You can view all of these here: [Legislative Guidance](#)

SK

This looks about right. I had a couple of thoughts and comments...

The first bullet - If we obtain written parent permission we can talk about human sexuality, Contraception, or family planning. (Same for nurses), also,, when discussing "periods" just don't talk about birth control or family planning.

Also, if a student brings up one of these topics we are not to give advice or guidance but do let them know if they want to continue this counseling that we will need written permission.

I wouldn't say outside mental health agencies have different rules, but their rules are defined clearly in SB150 as far as us getting permission. It may not be a change for us because we already get parent consent for outside counseling.

Does all this sound right?

I agree with your comments, Steve.

The discussion I had was with Shannon and the elementary counselors and my notes were focused on elementary students. The probability of an elementary student wanting to talk about contraception/family planning/birth control is very unlikely but not impossible. However, at the middle and high school levels, this is more likely, and yes, written parental consent would need to be given prior to the conversation, as you said.)

I suppose what I meant by community mental health agencies having different rules is that they are not necessarily held to the same regulations found in KRS Chapter 158 because Chapter 158 statutes are all school related. Of course, they are bound by the same abuse/neglect reporting laws.

I'm not sure I'm expressing myself very well or making myself clear BUT these are just my notes from what Shannon shared so she can offer better insights to all of this from a mental health perspective.

Good luck getting all the parental consent info in enrollment/first of the year packets to be able to give various surveys--specifically the Basic Needs survey. I hate that it will require parental consent but since it surveys physical and mental health of students, it will need written consent. I worry that some of the students who you need info on the most will not be able to complete the survey due to parents/guardians not giving consent for whatever reason.

If I'm reading the documents correctly, this guidance places much less emphasis on obtaining consent from parents for mental health and health services and focuses more on notifying parents and creating the mechanism for them to opt out if they so choose. In my brain (which is a wild place, so I could be totally wrong), this works much like the parents' right to request that we withhold student directory information. Our current practice with that is to notify parents of their rights under FERPA through the OLR, and they have to contact us to complete the written request for us to withhold that information.

I'm interested to hear Mr. Dexter's opinion!

Do you have any school library guidance for SB150? Specifically on collection development, book fairs, access to materials, etc.

My superintendent and district office have had questions from staff, and 2 parents have asked how that works...

Thanks so much for any insight!

The ultimate overall question is: Can library media programs make available for check-out books that pertain to topics listed in SB 150? If so, can they be part of displays or promotions in the library?

Here is the exact wording from SB 150: A policy to respect parental rights by ensuring that: 1. Children in grade five (5) and below do not receive any instruction through curriculum or programs on human sexuality or sexually transmitted diseases; 2. Any child, regardless of grade level, enrolled in the district does not receive any instruction or presentation that has a goal or purpose of students studying or exploring gender identity, gender expression, or sexual orientation; and A policy to notify a parent in advance and obtain the parent's written consent before the parent's child in grade six (6) or above receives any instruction through curriculum or programs on human sexuality or sexually transmitted diseases authorized in this section. Any course, curriculum, or program offered by a public school on the subject of human sexuality provided by school personnel or by third parties authorized by the school shall: (a) Provide an alternative course, curriculum, or program without any penalty to the student's grade or standing for students whose parents have not provided written consent as required in subsection (1)(e) of this section; (b) Be subject to an inspection by parents of participating students that allows parents to review the following materials: 1. Curriculum; 2. Instructional materials; 3. Lesson plans; 4. Assessments or tests; 5. Surveys or questionnaires; 6. Assignments; and 7. Instructional activities; (c) Be developmentally appropriate; and (d) Be limited to a curriculum that has been subject to the reasonable review and response by stakeholders in conformity with this subsection and KRS 9 160.345(2).

"A public school offering any course, curriculum, or program on human sexuality shall provide written notification to the parents of a student at least two (2) weeks prior to the student's planned participation in the course, curriculum or program." - This is from KDE guidance

So, with all of the above information:

Is the library collection considered a "program"?  
Is the scholastic book fair considered a "program"?

I'm sorry to pose these questions, but they've been posed to me, and I wanted to get the KDE Library leads guidance. I don't want to put our Library Media Specialists and their programs in a position to be breaking laws. Still, I want them to be able to make available reading materials that are age-appropriate on all topics if the law permits. The library collection is not a curriculum or a presented program, in my opinion. It is based on a choice for check-out. The library instruction they provide within the library lesson would be considered a curriculum or presented program, but the collection itself, I would think, is not. I don't want to be the "say so" on this, though, because I would never want to put our libraries or district in a position of law-breaking or litigation. I've included our Chief Academic Officer, as he will be working through this with me for libraries, instructional resources, and our curriculum.

Thanks for any insight you can give us!

Subject: Re: SB 150 Library Guidance

The ultimate overall question is: Can library media programs make available for check-out books that pertain to topics listed in SB 150? If so, can they be part of displays or promotions in the library?

Here is the exact wording from SB 150: A policy to respect parental rights by ensuring that: 1. Children in grade five (5) and below do not receive any instruction through curriculum or programs on human sexuality or sexually transmitted diseases; 2. Any child, regardless of grade level, enrolled in the district does not receive any instruction or presentation that has a goal or purpose of students studying or exploring gender identity, gender expression, or sexual orientation; and A policy to notify a parent in advance and obtain the parent's written consent before the parent's child in grade six (6) or above receives any instruction through curriculum or programs on human sexuality or sexually transmitted diseases authorized in this section. Any course, curriculum, or program offered by a public school on the subject of human sexuality provided by school personnel or by third parties authorized by the school shall: (a) Provide an alternative course, curriculum, or program without any penalty to the student's grade or standing for students whose parents have not provided written consent as required in subsection (1)(e) of this section; (b) Be subject to an inspection by parents of participating students that allows parents to review the following materials: 1. Curriculum; 2. Instructional materials; 3. Lesson plans; 4. Assessments or tests; 5. Surveys or questionnaires; 6. Assignments; and 7. Instructional activities; (c) Be developmentally appropriate; and (d) Be limited to a curriculum that has been subject to the reasonable review and response by stakeholders in conformity with this subsection and KRS 9 160.345(2).

"A public school offering any course, curriculum, or program on human sexuality shall provide written notification to the parents of a student at least two (2) weeks prior to the student's planned participation in the course, curriculum or program." - This is from KDE guidance

So, with all of the above information:

Is the library collection considered a "program"?

Is the scholastic book fair considered a "program"?

I'm sorry to pose these questions, but they've been posed to me, and I wanted to get the KDE Library leads guidance. I don't want to put our Library Media Specialists and their programs in a position to be breaking laws. Still, I want them to be able to make available reading materials that are age-appropriate on all topics if the law permits. The library collection is not a curriculum or a presented program, in my opinion. It is based on a choice for check-out. The library instruction they provide within the library lesson would be considered a curriculum or presented program, but the collection itself, I would think, is not. I don't want to be the "say so" on this, though, because I would never want to put our libraries or district in a position of law-breaking or litigation. I've included our Chief Academic Officer, as he will be working through this with me for libraries, instructional resources, and our curriculum.

Thanks for any insight you can give us!

**From:** Andrea Craig andrea.craig@boyle.kyschools.us  
**Subject:** SEL Screener Last one for this year  
**Date:** May 3, 2023 at 9:44 AM  
**To:** Boyle Co HS Staff boylehsstaff@boyle.kyschools.us

Good morning-

It is time to complete the last Social-Emotional Learning (SEL) screener for the year. It should not take you more than 15 minutes (or less if you completed the winter screener). Please have this completed by Friday, May 12th.

**Screener Directions**

Please follow these steps:

1. To locate your sheet search your last name 3rd period: SEL Universal Screener in your Google Drive. (Ex: CRAIG 3rd Period: SEL Universal Screener.)
2. Go to the *SPRING SCREENER* tab on your SEL spreadsheet.
3. Enter the date you are completing the screener.
4. Type your name.
5. Enter your homeroom/3rd-period student names. This will include students who are in the resource room. Please collaborate with their case managers to rate them.
6. Enter student id numbers. These can be found on Infinite Campus.
7. Give each student a score for all 12 questions using the scale on the spreadsheet. It won't take long, I promise.
8. You are finished ;)

Please let me know if you have any questions. Thanks!

What kinds of questions are on this screener? Is this one a SB150 permission needed survey?

On Wed, May 3, 2023 at 9:44 AM Andrea Craig <andrea.craig@boyle.kyschools.us> wrote:

From what I understand the teachers are filling out the screener rating the students. The student has no knowledge or participation. Please let me know if this is not correct.

MR

That is correct. With the passing of the new law we can cancel this one if it makes everyone feel better about it and we group for next year!

Here is an example of the universal SEL screener.

Many districts across the state use this or something similar so I would love to know how everyone is tackling this with the SB150.

**Subject:** Re: SEL Screener Last one for this year  
**Date:** May 4, 2023 at 3:17 PM  
**To:** Andrea Craig andrea.craig@boyle.kyschools.us

SB 150 has no bearing if the teacher is rating the student.

Here is an example of the universal SEL screener.

Many districts across the state use this or something similar so I would love to know how everyone is tackling this with the SB150.

We should be fine as long as it is teachers filling it out. No worries for now.

Andrea can send the screener to Steve?

What kinds of questions are on this screener? Is this one a SB150 permission needed survey?

On Wed, May 3, 2023 at 9:44 AM Andrea Craig <andrea.craig@boyle.kyschools.us> wrote:  
Good morning-

It is time to complete the last Social-Emotional Learning (SEL) screener for the year. It should not take you more than 15 minutes (or less if you completed the winter screener). Please have this completed by Friday, May 12th.

#### **Screener Directions**

Please follow these steps:

1. To locate your sheet search your last name 3rd period: SEL Universal Screener in your Google Drive. (Ex: CRAIG 3rd Period: SEL Universal Screener.)
2. Go to the *SPRING SCREENER* tab on your SEL spreadsheet.
3. Enter the date you are completing the screener.
4. Type your name.
5. Enter your homeroom/3rd-period student names. This will include students who are in the resource room. Please collaborate with their case managers to rate them.
6. Enter student id numbers. These can be found on Infinite Campus.
7. Give each student a score for all 12 questions using the scale on the spreadsheet. It won't take long, I promise.
8. You are finished :)

Please let me know if you have any questions. Thanks!

With the passage of SB 150, we have had to make some adjustments. One of those adjustments will increase the amount of time it takes for students to receive any type of treatment from guidance counselors or mental health professionals due to the requirement of parental consent in most instances. Any type of counselor referral needs to be as specific as possible to assist in this process. I won't get too far into the weeds, but it will increase the time for many situations to be resolved. Feel free to take a look at SB 150 at the link below.

KT

Thank you for sending this, and I will read through it. In the meantime, if a student asks to go see a counselor, I assume it is okay for us to go ahead and send them to the guidance office?
